Engaging your child at home

Have regular conversations with your child to understand his/her strengths, interests, abilities, talents and aspirations.

Affirm your child and offer support when he/she shares his/her plans with you.

Be open and flexible when discussing your child's preferences, needs and choices.

Manage your own expectations and do not project these expectations onto your child.

THE STRAITS TIMES

River Valley High School student Wai Jone Sher, now in the second year of junior college, enrolled through the DSA category of Scientific Investigation.

She did not have a portfolio of certificates because she had no experience in science-related competitions. Back in Nan Hua Primary School, her co-curricular activity was volleyball.

But she enjoys using her science knowledge to solve problems at home, such as making a reflector to keep birds away from the balcony.

She talked fervently about her passion projects during the DSA interview, and it was her keen interest in science which opened the door for her.

How to interpret the PSLE Score Ranges?

The PSLE Score ranges for each secondary school can be found in MOE School Finder. The range refers to the PSLE Score of the first and last student admitted to a particular school in the previous year via the S1 Posting Exercise. This shows the range of student profiles who enter each school.

Posting Group 3	15	20
Posting Group 2	21	24
Posting Group 1	25	28

PSLE Score of the first student posted into the school in the respective Posting Groups.
