'Learn For Life' – Preparing Our Students To Excel Beyond Exam Results

Building on efforts to move away from an over-emphasis on academic results, the Ministry of Education (MOE) will be adjusting school-based assessment structures at the Primary and Secondary levels from 2019. To meet the challenges of an increasingly complex world, our students need to be lifelong learners. To nurture lifelong learners, we will help our students discover more joy and develop stronger intrinsic motivation in learning. The adjustments to reduce school-based assessment load and perceived examination stakes aim to free up more time and space in schools to strengthen holistic development, self-discovery and engaged learning. These changes will provide more opportunities for student-centred teaching and learning approaches, laying the groundwork for nurturing life-long learning attitudes and skills.

The key changes for Primary 1 – Primary 2 students are as follows:

a) Reducing the Number of School-Based Assessments

From 2019, all weighted assessments and examinations for Primary 1 and Primary 2 students, including the year-end examination at Primary 2, will be removed. Teachers will continue to leverage assessments to check for students' understanding, and provide timely feedback to improve learning, but they will not count towards the overall mark or grade.

b) Refreshing the Holistic Development Profile

The Holistic Development Profile (HDP), commonly known as the 'report book', will also be adjusted at all levels to better support a student's learning progress. From 2019, the HDP will no longer present certain academic indicators such as class and level positions of the students. This is to enable each student to focus on his/her learning progress, and discourage excessive peer comparisons. With the removal of weighted assessments at Primary 1 and Primary 2 from 2019, MOE will guide schools to use qualitative descriptors to report students' learning at these levels.

c) Revising the Criteria of Edusave Academic Awards for Lower Primary

With the removal of all weighted assessments at Primary 1 and Primary 2, MOE will adjust the academic criteria for awarding the Edusave Merit Bursary (EMB) to Primary 1 and Primary 2 students and Edusave Good Progress Award (GPA) to Primary 2 and Primary 3 students. The selection of the EMB and GPA at these levels will no longer be based on academic scores, given that weighted assessments in Primary 1 and Primary 2 will be removed. Instead, the eligibility criteria for Primary 1 and Primary 2 EMB and Primary 2 and Primary 3 GPA will be adjusted to recognise positive learning orientations such as diligence, curiosity, collaboration and enthusiasm in daily lessons and learning activities.

You may read more about the summary of the adjustments and changes at [Annex A: items that will be removed / adjusted in the HDP](#) is at [Annex B](#); and the current eligibility criteria for [EMB and GPA](#) is at [Annex C](#).

Silent Reading

Every morning, the Primary 1 and 2 students gather for assembly at the Lower ISH. From 7.10 a.m. to 7.25 a.m., the students will read their storybooks silently. We strongly encourage our students to bring English or Mother Tongue storybooks from Monday to Friday.

E-Learning

The school will be using SLS and myON platforms to conduct e-learning. Students will be given a personal account to access online lesson packages and e-assignments by their subject teachers from home. More information on these e-Learning portals will be given in a separate letter.

All parents and students are strongly encouraged to change their passwords upon the first log-in.

Programme for Active Learning (PAL)

Programme for Active Learning (PAL) was introduced by the Ministry of Education (MOE) in 2011 and will be conducted for all Primary 1 and Primary 2 students. PAL aims to facilitate the well-rounded development of students in the five learning domains (cognitive, moral, social, aesthetics and physical) and help students to develop social and emotional competencies. The modules are experiential in nature and incorporate learning in a creative, fun, and enjoyable way. The following modules will be offered to Primary 2 students during curriculum time:

Semester 1		Semester 2	
Term 1	Term 2	Term 3	Term 4
Performing Arts - Dance	Visual Arts	Outdoor Education	K-Pop Dance

Physical Education, Art, Music (PAM)

The Primary 2 students will continue their Physical Education (PE) programme from last year that will focus on their Fundamental Movement Skills (FMS). In Term 1, they will be undergo the Gymnastics and the Games & Sports modules. During Gymnastics, students will learn locomotor and non-locomotor movements. During Games & Sports, they will learn skills like throwing, catching, rolling, and dribbling through a series of fun activities and games.

The Art Education will be focused on artworks done by the world's famous artists such as Giuseppe Arcimboldo, Wassily Kandisky amd Henri Matisse. Students will learn how feelings are expressed in artworks through guided discussions. Art techniques such as paper-cutting and oil pastels techniques will be taught.

With respect to Music, the students will be learning to identify and perform strong and weak beats in triple and quadruple time, identify and perform music of different tempos, and appreciate music from the Chinese culture.

Co-Curricular Activities (CCAs)

Recreational Co-curricular Activities (CCAs) are only offered to Primary 3 to Primary 6 students. However, Primary 1 and Primary 2 students are welcome to join our Enrichment Co-Curricular Activities (ECCAs) via the HPPA website (<http://hppa.org.sg>). Your child will be given the opportunity to participate in CCAs from Primary 3 onwards.

Student Diary

The student diary will be used as a means of communication between teachers and parents. Students should use the diary to take note of their daily homework and reminders from their teachers. We hope that you will check your child's student diary regularly.

Communication with Parents

Announcements on school matters will be posted on our school's website at <http://www.henryparkpri.moe.edu.sg>. Please visit the website regularly for updates.

In our efforts to go green, term letters will be sent directly to parents via Parents Gateway (PG). Teachers will also use PG to send consent forms and announcements. Please ensure that the notification for the app is turned on so that you receive these information in a timely manner.

In the event there are changes to your email address, please inform your child's Form Teacher as we need to update our emailing system. We look forward to fostering a strong partnership with you.

Warmest regards,
Ms. Siti Rashidah
